

PRIMO SUSTAINABLE PRODUCTS

Product Data Sheet

Primo Lime Putty

Primo Lime Putty is an all natural green building product. Lime putty has been traditionally used in the building industry for hundreds of years. It can be used as a masonry mortar and plaster base, as well as in limewashes and in fresco painting. Primo Lime Putty is made of the highest quality calcium carbonate and has been aged a minimum of 90 days.

Color: Naturally white in color

Flash Point: None

Composition: Calcium carbonate

Health Hazards: Avoid continual contact with skin or eyes. Always wear safety glasses and rubber gloves when handling mixture. Prolonged contact may irritate skin. Direct eye contact can cause permanent damage to vision. Do not ingest or inhale product. If product comes in contact with skin, wash off with soap and water. If contact with eyes occurs, flush with water and contact a physician. If product is ingested, drink plenty of water and contact a physician.

Product Handling: Whenever possible contain and sweep up spillage. Product contains alkaline material. Dispose of product in accordance with Federal, State and local regulations.
